SOMETHING NEW!

The undersigned would respectfully announce to the citizens of Alexandria and vicinity, that, having introduced their improved STEAM FEATHER RENOVATOR

into this place, they are now prepared to cleanse and renovate feathers in the most effectual manner. By a pressure of steam, and the way it is applied, together with the facilities for ventilat-ing and drying which we have invented, we claim more effectually, and in less time, to renovace feathers than by any process ever offered to the public. Our process not only cleanses old feathers from all impurities, relieving their matted condition, thereby nereasing their bulk nearly one bair, making them light and lively, clean and healthy, but also removes the disagreeable odor so common to new feathers, and destroys all moths and the liability thereto. For further particulars and prices see bills which will soon be in circulation.

Satisfaction will be guaranteed, or no charge will be made.

Parties desirous of examining the process are respectfully invited to call at our place of business, NO. 66 KING STREET, between the hours of 9 and 12 a.m., where the patentee or his agent will be found, who will take pleasure in showing how the work is done. Send in your orders and come and see the

process yourselves. Parties wishing to engage in a safe and profitable business will find it for their interest to cal
